

Wando High School School Improvement Council

Dear Parents,

Please accept this invitation to make a positive difference in the education of our children. Your participation in the Wando High School Improvement Council is vital to accomplishing the mission of our school. Parents elected to the SIC will have meaningful involvement in planning school improvement.

Since 1978, South Carolina statutes have required that each school board of trustees establish a school improvement council in each school. With the passage of each new legislative initiative the level of councils participating in planning, implementing and monitoring school improvement efforts has increased.

Charleston County School District's School Improvement Council members are empowered to advise and recommend to the principal how to improve the educational quality and student achievement in each school. Participation involves training and attending regular meetings.

We encourage and welcome your active participation as a member of the council. Please nominate yourself and/or another parent who also has the best interest of our school in mind.

Thank you,

Kate Darby
School Improvement Council Chair
